

ACTIVE WILDFIRES

01 September 2020

The CIFFC National Preparedness Level remains at **Level 1**

No large wildland fire activity and most Agencies have low wildland fire hazard status

Reported active fire locations are updated daily as provided by fire management agencies (provinces, territories and Parks Canada). The fires data is managed through a national Data Integration Project (DIP) coordinated by the Canadian Interagency Forest Fire Centre (CIFFC) and Natural Resources Canada with participation from all partner agencies.
